**ADMINISTRATIVE LAW JUDGE'S RULING**  
**DIRECTING PARTIES TO PROVIDE FURTHER SUPPLEMENTAL INFORMATION**

On April 11, 1994, an Administrative Law Judge ruling was issued directing parties to provide supplemental information in connection with the Commission's Order Instituting Investigation (OII) of Mobile Telephone Service and Wireless Communications. As noted in the April 11 ruling, the OII explained that upon receipt of parties filed comments, "[t]he Commission may issue interim rulings or decisions to guide parties for further comments...." Upon further review of parties' comments, additional data requirements have been identified. In accordance with the directive of the OII, this interim ruling directs the cellular carriers identified in the April 11 ruling to provide further information. The additional information requested below is required to assess the claims of industry competitiveness, as asserted in the filed comments.

IT IS RULED that each cellular carrier identified in the April 11, 1994 ruling in Item A shall provide the following information by May 16, 1994 for those same Metropolitan Statistical Areas and Regional Statistical Areas designated in the April 11, 1994 ruling for each year 1989-1993:

Provide the total number of cell sites that have a Capacity Utilization Rate (CUR) within the range described below. CUR for the purpose of this data request is defined as the ratio of the average busy hour (BH) capacity in Erlangs to designed capacity in Erlangs for each cell site. Average BH capacity for this purpose is to be determined by finding the average of the

weekly peak capacities for a year. Capacity  
Utilization ranges follow:

High CUR areas:	90 - 100%
Medium CUR areas:	65 - 90%
Low CUR areas:	0 - 65%

Companies that respond to this data request may be asked additional information regarding supporting workpapers for the information they will supply.

Responses shall be provided using the format provided as an attachment hereto. A separate copy of the response shall be supplied to the Commission's Advisory and Compliance Division, Attention: Fassil Fenikile. Any questions concerning the technical data requested herein should be directed to Mr. Fenikile (415-703-3056).

Dated April 22, 1994, in San Francisco, California.
